WATER RATES:

Starting August 15/17 - Excess water consumption rates will increase to \$10.00/1,000 gallons. The current excess water rate is \$8.00/1,000 gallons. The excess rate increase reflects an user pay philosophy that users who consume more shall pay a proportionately larger share of the costs.

BUDGET HIGHLIGHTS

- The 2017 municipal tax rate has been set at 3.6 mills, .2 mills lower than last year. The base tax remains unchanged at \$600 for residential properties with a residence upon it and \$700 for commercial properties with a building upon it.
- The province eliminated the Sask. Energy grant-in-lieu effective April 1st. For 2017, this will be a loss in revenue of \$12,000. On an annual basis, this would be a revenue loss of \$22,000.
- The Town is estimating it will spend \$1.2 million on digging 2 new wells with corresponding water lines to the water treatment plant along with changes within the water plant itself.
- The Town is also estimating it will spend \$1.3 million on a storm drain system on the east side of Delisle located along the new service road being constructed by Sask. Highways. Without it, the Town would be at risk of flooding on the east side of Town. To help finance this project, at its regular meeting held June 13th starting at 7:00 P.M. at the Town Office, Town Council will considering the borrowing of \$1 million.
